Images

Thank you for your interest in my family portrait photography.
Do not hesitate to contact me to discuss your own individual sitting.

I usually visit you at your home or venue of your choice where you can feel relaxed in familiar surroundings - playing, working, sitting in your garden - capturing informal lifestyle shots using natural light.

The 'sitting' takes about an hour depending on the time it takes for us to 'settle in' together, weather conditions, any change of clothes you may wish to make. Props can be useful especially for children - such as a favourite toy.

The sitting fee is £100 for an individual, £150 for a family; this includes a set of edited contact sheets of your images. Beyond a 30 mile return journey from my home I charge travelling expenses of £1.00 a mile.

From your contact sheets you and your family select your favourite images for printing with special montage options. Prices on application.

Individual Portraits

Black and white or colour, I aim to capture your personality, taking many shots to put you at your ease.

Family Groups

I take individuals and groupings within the family, capturing interactions with each other, as well as the group as a whole.

I enjoy the challenge of new faces, shy children, self conscious adults, people interaction - and look forward to capturing special moments for you and your family.
